

Marlin – Thermocouple Connectors – Mini 3-Pole Plugs and Jacks

THERMOCOUPLE CONNECTORS MINI 3-POLE PLUGS AND JACKS

Mini 3-Pole (Patent Pending)

Miniature Thermocouple Connectors for easy mating of small diameter sheathed thermocouple to extension wires where an electrical interference noise shield is required.

Featuring reliable, easy hook-up Jab-in® thermocouple terminals with built-in shield wire connection.

These 3-pole miniature thermocouple connectors are the most functional terminations available. Developed by temperature instrumentation experts in response to user requirements, these connectors achieve dependable connections between small diameter metal sheathed thermocouples and shield extension wires. Fine wires found in these units are easily handled and an automatically terminated shield wire circuit is provided.

The premium materials of which these connectors are made make them unusually suitable for harsh environments even where extreme temperature tolerance is not a factor.

The real cost of a connector includes the time required for installation and reliability in service. The mini 3-pole connectors give you the best performance at the lowest cost.
